Who Wants a Nice Head of Hair?

Easy to Get One in a Few Weeks by Using Parisian Sage

Lack of nourishment—that's the reason hair falls out, grows thin, fades and turns grey. Dandruff germs dig into the hair roots and rob the hair of its nourishment.

Parisian Sage the delightfully refreshing hair grower and beautifier not only completely destroys these germs but penetrates into the roots of the hair and furnishes the stimulating nourishment that causes hair to grow abundantly and lustrous.

Parisian Sage is guaranteed to put an end to dandruff; stop falling hair and scalp itch in two weeks, or money back. Large bottle 25 cents at Geo. W. Stansfield's, 632 Kansas avenue. —Yours very truly, Alice Baumgartner, Hague, N. Y.

Club Rooms for Santa Fe Employees in Topeka.

Meeting Place to Be Arranged in New Building.

FOR 5,000 PEOPLE.

This Number Employed in Shops and Offices.

Other Items of General Interest in Traffic World.

General officers of the Santa Fe in Topeka are planning to establish in this city for the local general officers and other employees, a big club room in the top floor of the general office building. This club room will be open to all Santa Fe men and women in the city and will be equipped with every convenience for the enjoyment of evenings and railroad entertainments.

The Railroad Young Men's Christian association in Topeka is a gathering place for many of the Santa Fe employees in the city. But it does not accommodate the office employees in the general office building and the club room scheme is for the purpose of catering for these people.

The room will be fitted up with pool and billiard tables, bowling alleys, big easy chairs, a smoking room, and a place for dancing. The Santa Fe people in Topeka have an orchestra of their own and next winter dances could be given any time the employees wished.

Entertainments and gatherings could be held in the hall and the officials could meet with the employees. In other words, it would be a meeting place of the 5,000 people employed by the Santa Fe in this city.

TEACH ART OF AUDITING.

Union Pacific Employing Experts to Help Trainmen.

Salina, Kan., May 26.—The Union Pacific railroad now has three auditors on its trains that pass through Salina. Two of the three train auditors, passenger trains Nos. 103 and 104, are men who have been imported from San Francisco. Notices at train auditing are taking instructions from those who have been in the employment of the railroad.

Good Liver Remedy Free

When you suffer from any form of indigestion it is always well to take something for the liver, as usually the trouble lies there. If you are bilious, have a bloated feeling after eating, if you belch, if your skin is yellowish you may be sure it is liver trouble. What you need is something to stir up the liver, to arouse the gastric juices so that they will aid in the digestion of your food. A very good remedy for this, and one highly recommended by those who have used it, is Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store at fifty cents or one dollar a bottle. But if you have any doubt about its merits, and would prefer to try it first, send your address to Dr. Caldwell and he will promptly send you a free sample bottle.

Thousands of people first learned of this remarkable sure for stomach, liver and bowel troubles through a free sample. Mrs. Frank Lilly of Plainview, Ill., sent for one and it cured her and she is open in saying that she will never take pills or strong cathartics again, as Syrup Pepsin acts so mildly. Mr. W. L. Bryant, the Postmaster at Sardis, Tenn., says he will never be without it again. No sick person can afford to ignore a remedy so highly endorsed as this. It is good for all the family from infancy to old age, because it is mild, free from griping and yet promptly effective. Furthermore, results are absolutely guaranteed or money will be refunded.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

ploy of the Southern Pacific out of San Francisco. The men which the Union Pacific have borrowed from the Southern Pacific are here for only one month, and then they will return them to the coast. However, while they are here they will teach enough men the art of train auditing so that auditors can be run on trains Nos. 103, 104, 105, 106, 107 and 108.

IT'S A BLESSING IN DISGUISE.

Wabash President So Interprets the Freight Rate Decision.

Chicago, May 26.—When a man can take the lemons which are handed to him and make lemonade out of them he becomes the ideal optimist. In the view of F. A. Delano, president of the Wabash railroad, and then, as if to prove his statement, he told the members of the Traffic Club of Chicago that he believed the interstate commerce law had been of real benefit to the capital invested in railroads, and that the commerce commissioner's recent refusal to permit an advance of railroad rates was a blessing in disguise. "While railway officials the country over generally feared the effect of the interstate commerce law," said Mr. Delano, "I sincerely believe it has been of real benefit to the capital invested in railway property, and that every change and amendment in the law has proved beneficial to honest methods."

"Perhaps the most serious disappointment the railroads have had has been the refusal of the interstate commerce commission to grant a general advance in rates; and yet I am inclined to think this refusal is really a blessing in disguise. I question whether it would have helped the railroads to have been granted an advance in rates. Other public service corporations are in the same boat, and the turn of the banker, the manufacturer and the mechanic is coming next."

"The railroads have gone through regulation and laid down a system of procedure, and the honest rates are profiting by it," said Mr. Delano, "but why stop at the railroads? Why not apply the same rule to interstate shippers and merchants, and, indeed, why not give the newspapers a taste of it? I think it would do them good."

CUT TIME TO THE COAST.

Union Pacific Slices Four and One-Half Hours From Schedule.

Local passenger officials of the Union Pacific have been notified from the general offices that four and one-half hours will be cut from the running time of the Overland Limited, No. 101, from Kansas City to San Francisco. The train which now leaves Kansas City at 10:15 p. m., will arrive at San Francisco the third day at 1 p. m., instead of 5:28 as at present. The change is effective May 29.

TWO WOMEN HAPPY.

If They Quarrel Husband Will Separate Them, He Says.

Pittsburg, Kan., May 26.—Peter C. Sharp of this city and his two wives Ann Catherine and Louisa, settled in the Sharp cottage, told of their plans to live together as a happy family. Ann Catherine, the first Mrs. Sharp, returned to her husband after 40 years of separation during which each had searched the country for the other. Mr. Sharp lost his wife in the conflagration which followed the fire in Chicago in 1871. Through the pension rolls of war department she found him and came here from her home in Oakland, Cal. Nine years ago Sharp gave up the search and married again.

"If I thought my coming would displace Louisa I would go back to my nursing the sick in Oakland," said Anna Catherine, as the three sat together in the garden today. "She has been a good wife and married my husband in good faith. This is her home and I shall bring her no sorrow."

Louisa held Mr. Sharp's wrinkled hand in hers. She is 50 years old. He is 82 and Anna Catherine 72. Louisa learned across her husband's knees and patted Anna Catherine on the cheek. "You will bring me no sorrow, my dear," she said tearfully. "There is room in this house and garden for us both. I understand it all."

Their common husband nodded toward a vacant field across the street and said: "If the women folks can't get along I'll build another house for one of them."

Sharp married his first wife in Johnsville, N. Y., in 1870. They decided to move to California. She with her daughter went ahead to visit her brother in Chicago. The fire destroyed her brother's home. She with the daughter escaped with only the clothes they wore. The husband started on a search for them but for 40 years found no trace.

JOHN FOLEY LOSES EYE.

Topekan Victim of Giant Firecracker Joke at Independence, Mo.

Kansas City, May 26.—John Foley, 18 years old, of Topeka, may lose the sight of his left eye as the result of a prank of a fellow workman in Independence. Foley and other employees of the Missouri and Kansas Telephone company were in a storage room used by the independence exchange on South Liberty street, when one of the num-

ber, thinking to play a joke, lighted a giant firecracker and threw it under a stove. It rolled toward Foley. He did not realize his danger and the cracker exploded. In the rebound from the floor it struck him in the left eye. Dr. N. P. Wood, who treated him, said there was a hemorrhage in the eye and Foley probably would lose it. He left Independence last night for Topeka.
